HOW WE WORKED

Six eyes, three agents, one memory

- A — Amiad's agent
- J — Jonathan's agent
- O — Omar's agent

WHAT IT BROUGHT US

- **Constant improvement**
- **No forgetting**
- **No getting in each other's way**

HIGHLIGHT 2 · TARGETED ARGUMENTS

The same fact, the right supplier

One checked fact per e-mail. The dossier decides who hears it.

MATERIAL HEDGED UNTIL MARCH (P08)

WE WRITE

“The index AS-14404 changed –5.5 % from 2026-06 to 2026-09.”

SUPPLIER

“That is not our reality: our AS-14404 is covered at fixed prices until March.”

final offer a round earlier **0.549 → 0.438**

MATERIAL OPEN (P18)

WE WRITE

“The index AS-14404 changed –5.5 % from 2026-06 to 2026-09.”

SUPPLIER

“We have verified the recent decrease … and have reduced our price.”

first counter 5.60 → 5.40 **0.467 → 0.520**

Dossier rule: `material_hedged` → the index fact stays back. Same stainless bar, same index, same sentence; one supplier moves, the other hardens.

P08 without the hedge guard, P18 with the recent-index rule · one practice session each (docs/LEARNINGS.md, experiments/LEDGER.md)
